ROADMAP IN DIGIT SRL

Speaker:

Mr. Gioele Bigini
Ph.D. Student @ University of Urbino

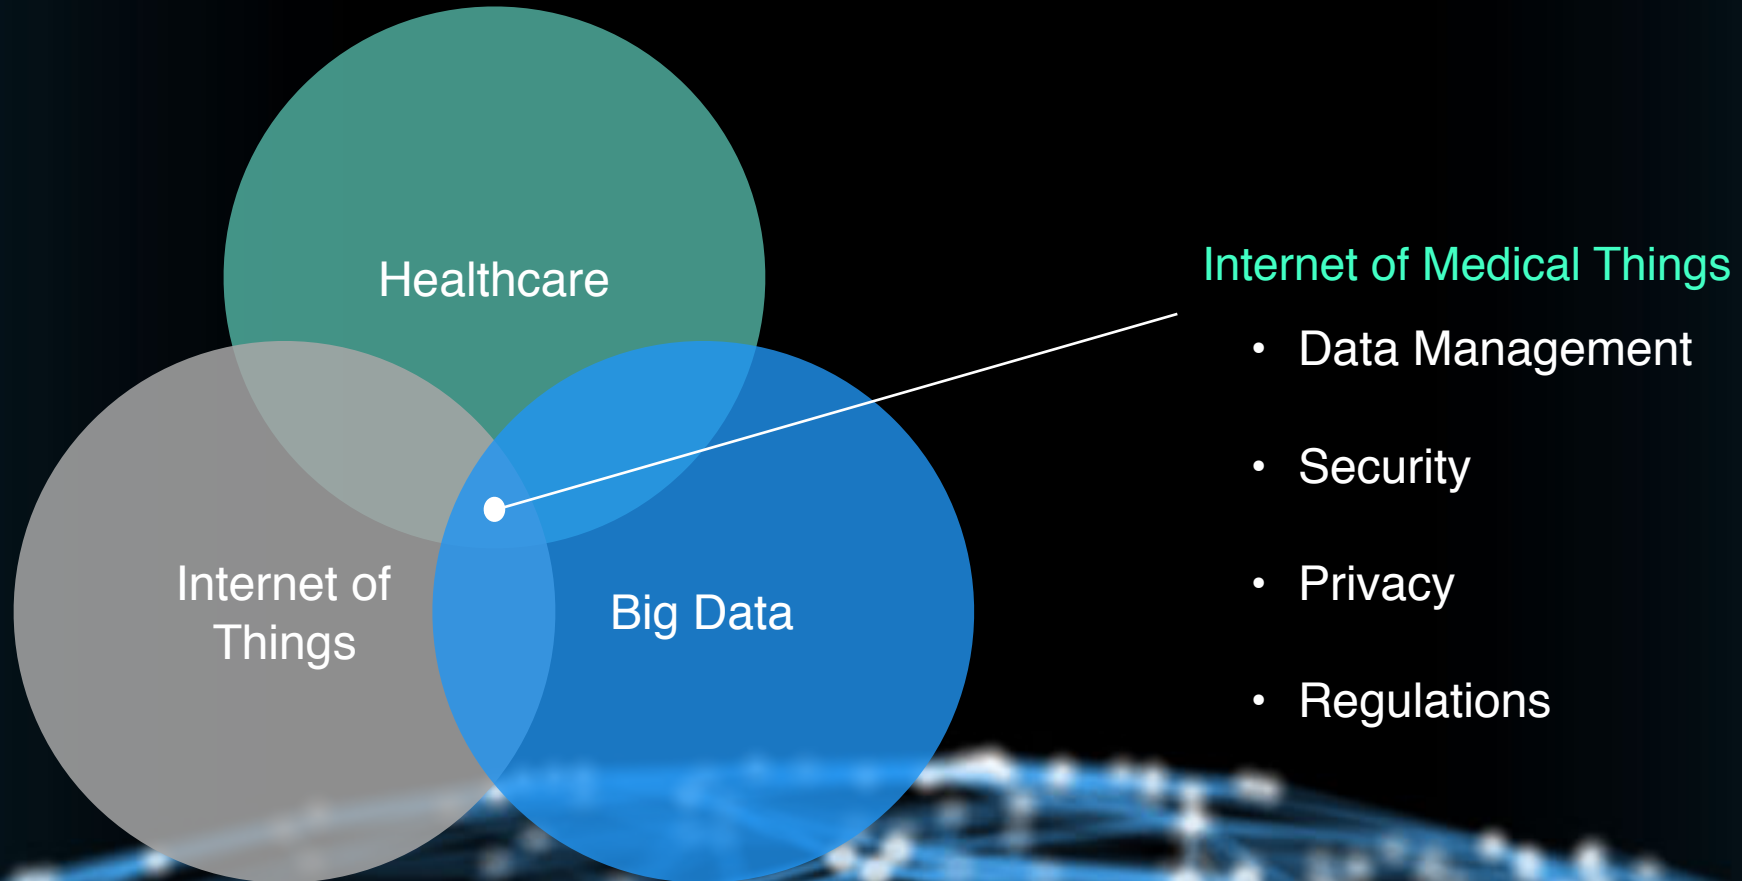

Supervisor:

Prof. Emanuele Lattanzi
Associate Professor @ University of Urbino

Agenda

- Healthcare and Internet of Medical Things
- Centralised vs Decentralised Systems
- Product Overview and Challenges
- The Roadmap

Healthcare and Internet of Medical Things

Client Server Implementations

Centralised Systems

- Central Entity
- No control by peers
- Provider Dependent
- Mature so Safe

Decentralised Systems

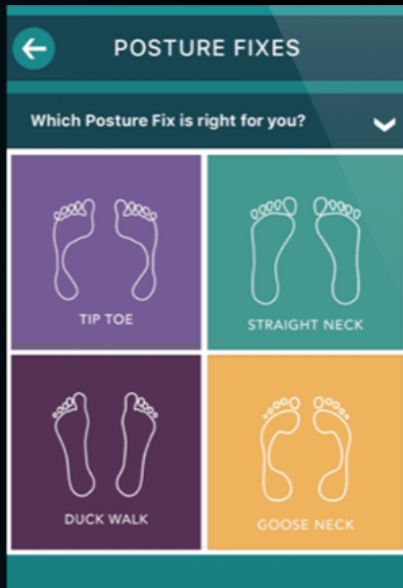

- No Central entity
- Peers have full control
- Peers Dependent
- New so Weak

iBalance

Fostering your healthy posture behaviours while enjoying life

- Collects Data
- Gives you real-time recommendations
- Allows to monitor progress
- Privacy Safe

Simple.

Download it from the AppStore

Fast.

One button to press

On your smartphone.

Always with you

Ooops!! Regulations!

Alternatives:

Give your data free

But seems not a good idea...

Reduce the features of the application

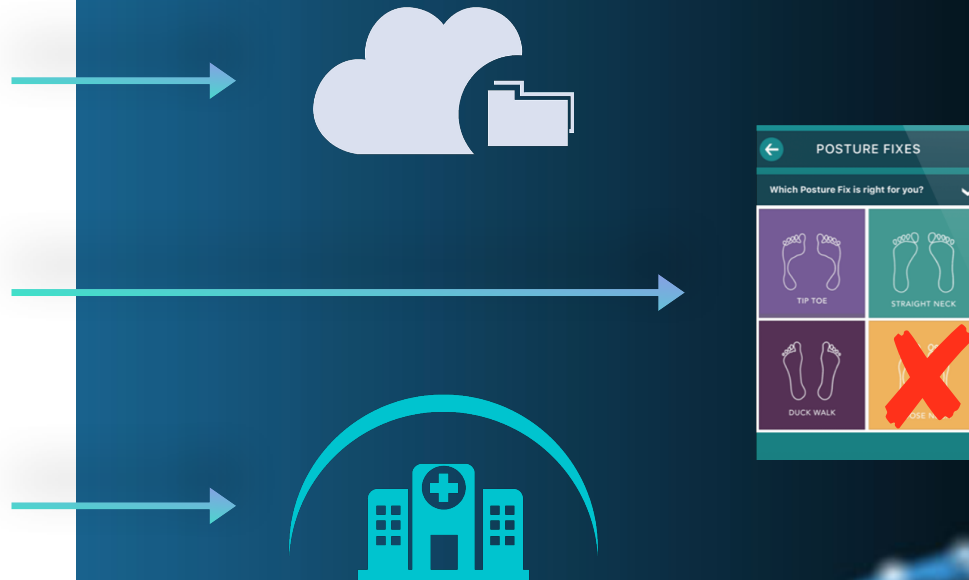

Will I have limitations?

Count on the National Healthcare System

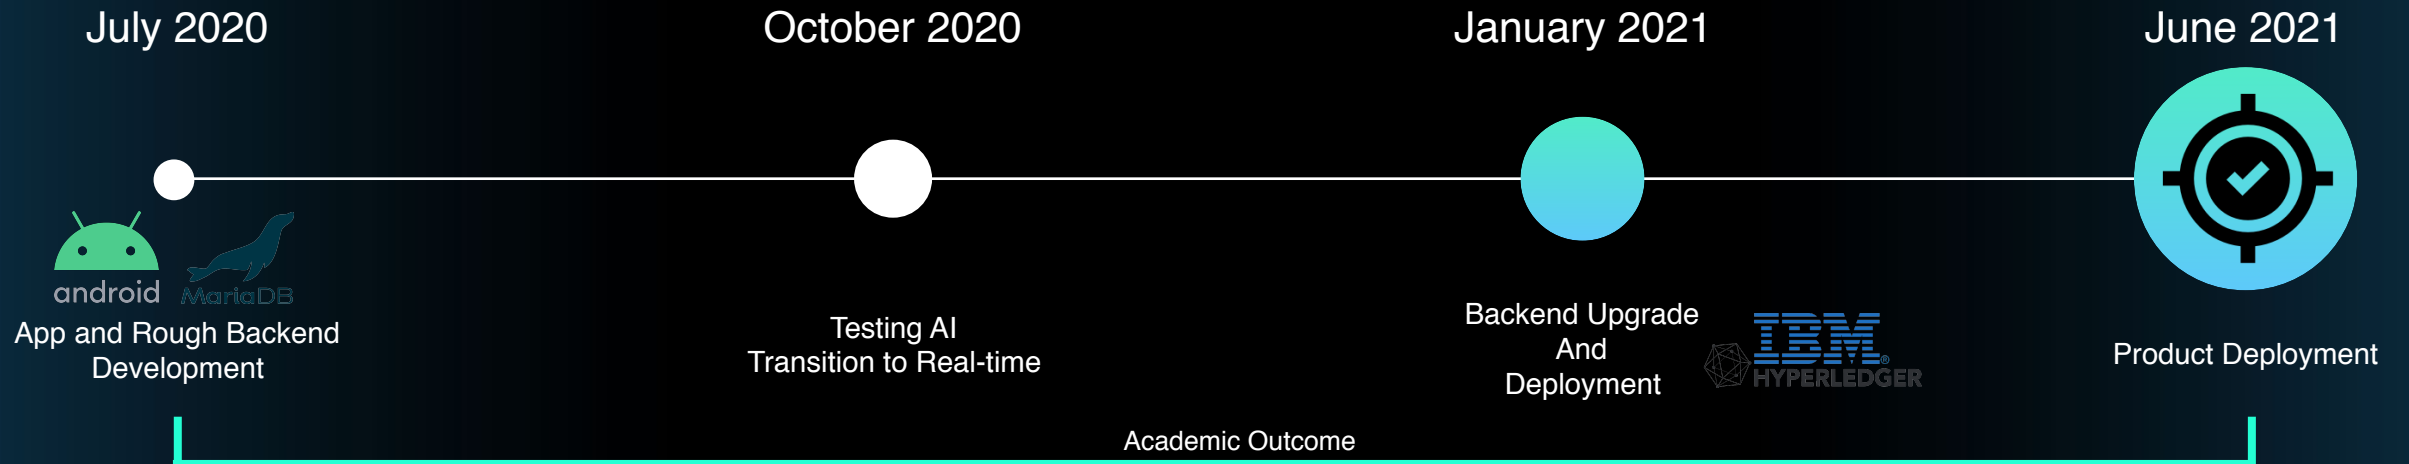

Wait...do we have one? But why the government?

A Decentralised Solution

Ok, right. It starts to be cool!

The Roadmap

- Securing data using Blockchain
- Position Paper: Decentralisation for Data Management
